

PRIVACY-FIRST · POWERED BY CHAINIT™

Age App

Help Us Test Age Verification, Not Identity

Internal Testing Drive | Presented by Saket Daxina, eSparkBiz

Age checks today force a bad trade-off

1

Easy to fake

A typed birthdate or a glance at an ID is trivial to get around.

2

Full ID exposed

Sites collect a scan of a full government ID just to answer one yes/no question.

3

Compliance risk

Retained ID images and DOB records become a liability the business has to store and secure.

WHAT IS AGE APP?

Verify age. Not identity.

Age App is a ChainIT™ product. It verifies age eligibility and returns a time-limited, cryptographically signed pass/fail result to the site or venue — nothing more.

- ✓ No date of birth shared with the site
- ✓ No government-ID image shared with the site
- ✓ No biometric data shared with the site
- ✓ Setup happens once; every access event starts a fresh session

TWO GATEWAYS

QR

Physical QR Code

Placed at a counter, door, or venue entrance

</>

Website Script

Embedded on the site to trigger the same check

Powered by ChainIT™

Configured once by the business

Example rule used for this test: Age > 18, applied to ageapp.com

What the person testing will do

1

Download Age App

- [App Store \(iOS\)](#)
- [Google Play \(Android\)](#)

2

Create a ChainIT ID

Complete setup once with an ID scan and a live check. This is tokenized — identity data stays protected.

3

Scan the QR code

At the demo site, scan the dynamic QR or tap Verify with Age App to start a session.

4

Get the result

The Business Rule runs against the ChainIT ID. Pass → redirected straight to the homepage.

WHY WE NEED YOU

The client asked for real feedback before rollout

Our client has asked leadership to run mass internal testing of Age App and report back on the real experience — not just whether the feature works, but whether it's clear, fast, and frustration-free for a first-time user.

We need people creating IDs and running real scans to catch friction points, bugs, and confusing steps — before the client's actual customers hit them.

YOUR ROLE

Be a first-time user

Approach it the way a real customer would — no shortcuts, no prior knowledge assumed. Your honest reaction is exactly what the client needs.

WHAT WE'RE ASKING YOU TO DO

Four steps, about five minutes

- 1 Download Age App** [App Store](#) or [Google Play](#)
- 2 Create your ChainIT ID** Complete the one-time setup inside the app
- 3 Visit the demo site and scan** ageapp.com/demo — tap [Verify with Age App](#) or scan the QR code
- 4 Fill out the feedback survey** [Open the Google Form](#)

TIMELINE

Let's get this done this week

Testing Window

26/08/2026 – 01/09/2026

Survey Deadline

01/09/2026

Questions?

**Reach out to Saket Daxina
directly.**
